

Garage Parking in homes valued up to \$200,000

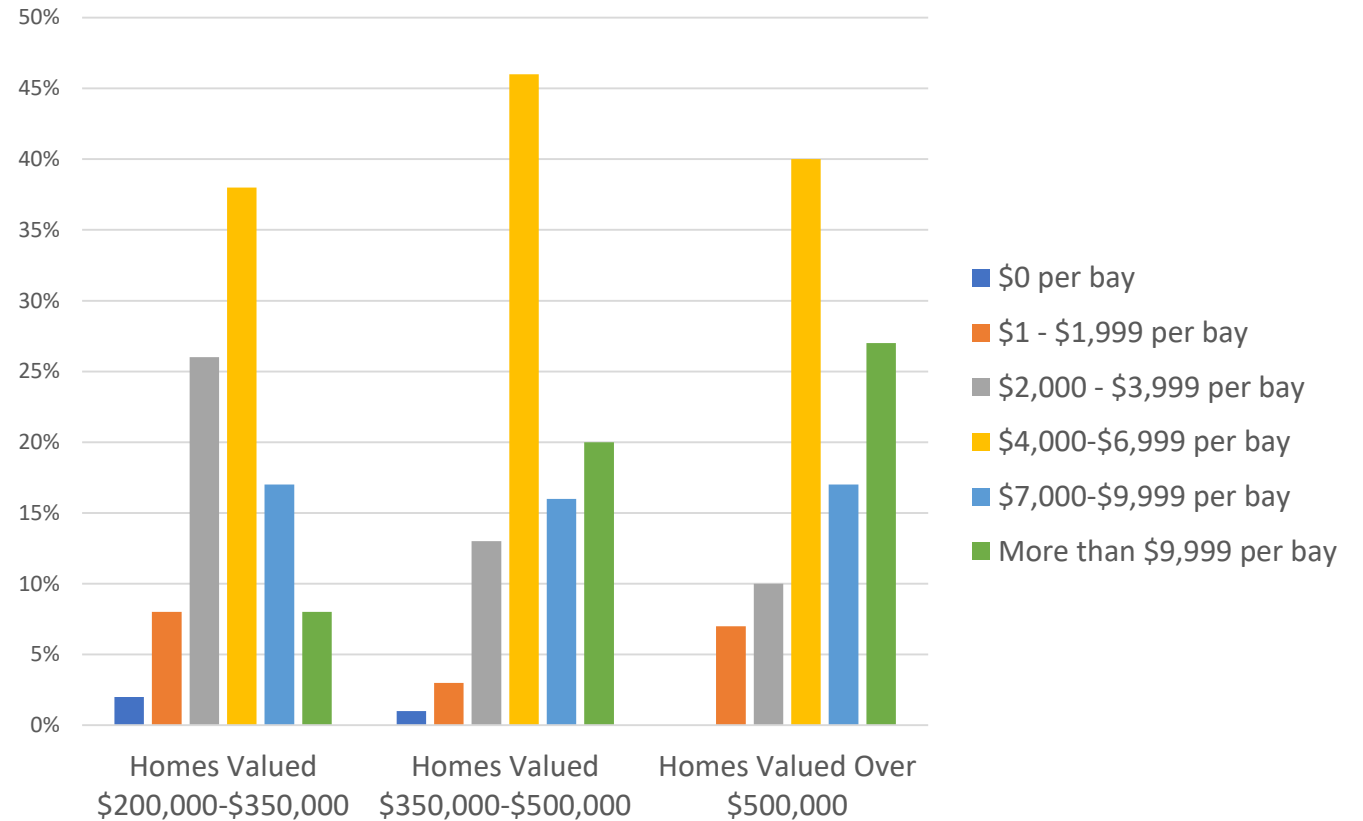

In the price ranges below how much would a typical buyer pay for garage parking?

Source: RAYAC Member Market Features Survey November 2019

Garage Parking in Homes valued over \$200,000

Assume a typical home in the price ranges below have a 2 car garage. How much would a typical buyer pay for garage parking in **excess of 2 cars**?

In this price range NOT having a 2-car garage may lower the list price.

In the price range of \$200,000-\$350,000, how much of a DEDUCTION per bay would you expect on the listing price for a home with less than a 2 car garage?
