I liked how everyone was nice and it was small. I also liked the different food options. The only thing I did not like was the hours

New Oxford High School was your average high school with questionable lunch choices. The teachers treated you based on how they liked you and whether or not you seemed to like their class.

New Oxford High School has greatly influenced my life. Through teachers, activities, and the culture there, I have been impacted. They have provided me and the other students with the education we need to succeed. I have always felt safe there, with the help of the teachers and administration. While it could be better and more advanced, it has helped many people get the education they need to move forward with their lives and careers. The teachers and staff are friendly and care about each individual. The culture and atmosphere is always positive and energetic, which helps excite the students about learning. This school has helped make me into the person that I am today.

There are many experiences that helped my high school career go well. I participate in many activities that take part throughout the school to improve it. National Art Honor Society, which I am the vice president of, creates many opportunities for volunteer hours, beautiful school murals, and donates money and art yearly. I also take part in multiple sports and the school's orchestra ensemble which creates entertainment for the community, and it helps keep me organized. Something that I would like the school to change is how united the school can be. I hope that in the future that more events, clubs, and communities within the school will be created to bring the students together to make the world a better place. Overall, I have enjoyed my high school experience.
