Special Message from the Realtors® Association of York & Adams Counties Board of Directors

Like so many others we are sickened and outraged by the shocking death of George Floyd and the recent racial injustices in our communities. We extend our sympathies to the Floyd family and the countless other families who have suffered similar losses.

Our Code of Ethics urges Realtors® to be strong supporters of fair housing and equality as we work to help everyone find a home. We know that racial disparities continue to be reflected in real estate with Black American homeownership lagging far behind the national average.

As stewards of the dream of homeownership, we are uniquely positioned to impact the communities where we list and sell real estate. We appreciate all you do as Realtors® to listen, learn, and work with others to be a part of the solution. As leaders in your communities, we encourage you to reach out to others to join in this effort, knowing that it will create a path to a better society and future for all. Building that future begins with equal access to housing for all.

The Realtors® Association of York & Adams Counties is committed to seeking solutions to address housing discrimination and foster a diverse inclusive real estate industry in our communities, staff and membership as a whole.

RAYAC stands in solidarity with the National Association of Realtors® to support any meaningful change that helps build our communities and creates a better future for all our residents.
